

Public Notice  
of the Proposed Issuance of a Lifetime Operating Permit to  
Kerr-McGee Chemical LLC in Madison

Kerr-McGee Chemical LLC has requested that the Illinois Environmental Protection Agency issue a Lifetime Operating Permit for air emissions from its groundwater remediation and treatment system located at #2 Washington Avenue in Madison. The facility formerly was operating under a Federally Enforceable State Operating Permit (FESOP) as a potentially major source of air emissions. Kerr-McGee has ceased wood treating operations and is therefore no longer a potentially major source. As the result of the change, a FESOP is no longer required for the facility. The Lifetime Operating Permit will cover air emissions from the remaining operations at the facility.

The Illinois EPA is accepting comments on the draft permit.

Persons wanting more information may obtain copies of the draft permit, and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, Lifetime Operating Permit, New). These documents and the application may also be obtained from the Illinois EPA's offices at 2009 Mall Street in Collinsville, 618/346-5120, and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

Comments are requested on the draft permit. Comments must be postmarked by midnight June 25, 2004. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
